

BONESCHI MOBILE CLINC

MOBILE CLINIC

On chassis IVECO ML 100E21W 4x4 rigid-day cab. Equipped with light and acoustic emergency warning and hinged windows.

MOBILE CLINIC

The vehicle is composed of two different rooms, that communicate by means of a sliding door. External access to each room is granted by two doors, complete with stairs with no slippery steps. Rear room is dedicated to the sanitary cell, the front instead can be used as an office/waiting room.

MOBILE CLINIC

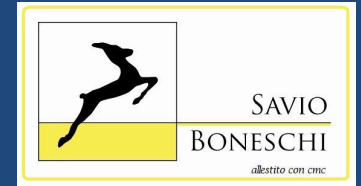

A basin, cupboards and a self loading stretcher on the floor grant a complete assistance to patients.

A 40 lts fridge, an air conditioning system and an accurate lighting system complete the equipment. The power is supplied by a generator and by means of a 220V external plug to be plugged to an external source.

MOBILE CLINIC

The rear part is equipped with folding chairs and office furniture.
